Congratulations on your engagement. Your wedding day is one to be always remembered and cherished; that is why having a photographer & or a videographer with your needs in mind is very important. In regards to my style - my wedding photography style is a mixture of studio type shots (posed or stage), to that photo-journalistic/documentary approach (un-posed) & natural live look that is raw, real & honest - giving you that view and feeling of being there for each special moment.
